

# Low Energy Lighting

- Up to 15,000 hours of lamp life
- These lamps use approximately a fifth of the energy of normal lamps
- Low energy lamps give out less heat
- Saving energy will save you money

**IP65 jet proof low energy fire rated showerlight**

Also available:

**Dimmable version**

£53.00 exc VAT    £60.95 inc VAT

Available in chrome or white only

**11W compact fluorescent lamp**

Fire Rated low energy uses the latest in CFL lamp technology. The new 11W lamp is approximately 50mm in diameter and therefore resembles the familiar halogen versions. The whole lamp is neatly packaged and easy to install. The output from the miniature fluorescent tube is enhanced by an integral reflector and the light output softened by a diffusing front lens.

**Compliant with new Part L regulations.**
